

ETRC WELCOMES NEW ARCHIVIST

Daniel Bromby

ETRC Archives Committee

The ETRC's Archives Department is happy to announce the arrival of Vicky Martineau as its new Archivist. Born and raised in the Eastern Townships, Vicky holds a B.A. in History (2014) from the Université de Sherbrooke where she fostered her love of learning and historical curiosity. In 2016, she went on to Université Laval where she obtained a Certificate in Archival Studies and is currently pursuing a Master's in History/Archival Studies, which she is expected to complete in 2018.

In just a few short months, Vicky has shown herself to be an enthusiastic and talented addition to the ETRC. In addition to her academic training, Vicky comes to the ETRC with practical experience gained through work she has done with the Eastern Townships School Board and Bibliothèque et Archives Nationales du Québec (BAAnQ, Sherbrooke office).

Vicky recently wrote an article entitled "Modèle numérique 4D du complexe industriel Alphonse Raymond Limitée," which was published in the Fédération Histoire Québec's own journal *Histoire Québec*, Volume 22, No. 3. In this article, Vicky demonstrates the ways in which 4D digital models can greatly enhance the research and dissemination efforts of today's archivists and historians. By using this technology to examine the Alphonse Raymond industrial complex in Montréal, we are able to see an interesting and effective means of viewing the morphology of this historical complex. This article provides an intriguing glimpse into the future of historical research.

Her passion for historical records preservation combined with her welcoming demeanour allows the ETRC Archives to continue its strong tradition of high quality archives management and service to researchers. Please join us in welcoming Vicky to the ETRC and feel free to contact her for all your ETRC archives needs. Vicky can be reached at etrc2@ubishops.ca or by phone at 819-822-9600 ext. 2261.
