1. We are good cooks, we cannot be
To eat our food is such a treat,
In soups and pickles, cakes and pies,
We let you know we specialize.

2. The Irwin girls make soup so thin,
It really is not soup at all,
In fact it is so very thin,
Its like the paper on the wall.

3. Three girls named Alice, this is nice
Though you may think it silly,
They put their chili sauce on ice
To make sure it was chilly.

4. Lillian made some soup one day,
It really was a wow;
She said, its bean soups dont you know,
Said we, what is it now?

5. When Hilda makes spaghetti
She never puts in cheese;
Its really quite insipid,
Like a kiss without a squeeze.

6. Janet makes good dumplings
She puts them in with pullets;
She had to tell us what they were,
Because we thought they were bullets.

7. Margarets muffins are a treat
They are made of bran and wheat,
Not more than one you will ever eat,
Because they will put you off your feet.

8. Mildred is great on Devils food,
Oh, boy, but she can make it good,
It really is her favourite cake,
She makes it for the Tarsons sake.

9. Olive makes macaroni
It is really much more like bologni
Like Lillians famous jelly roll,
For some one's boots it would make a sole.

10. Mrs. Joe Sawyers Angel Cake,
Is much like ~~must~~ cotton wool,
Be wise when asked to have a piece
And say, no thanks I am full

11. Agnes makes good apple sauce,
She sweetens it with honey,
She says the bees must keep their job
Although they get no money.

12. Mable made a ginger cake
She put in mustard by mistake,
It gave us all a tummy ache,
And all night long we were awake.

13. Marvel make some doughnuts
She made them much too hard,
We could not get our teeth through them
So Spug McCaw played with them in the yard.

14. When Sadie makes ham sandwiches,
They are bog ones thats a cinch
Her boy friend dropped one on his foot
He has not walked out since.

15. Ada's puddings are a joke
They could make a chicken cackle;
You could not raise them off your plate

15- without a block and tackle.

16. Ellens chicken salad,
A hen for say, for shame,
She always use veal instead
Says she, "whats ina name?"

17. Now Edith made a lemon pie
It surely was a fizzle
To cut the crust, this is no lie
We had to use a chisel.

18. Iva made a custard
For sugar she used salt,
She did not know the difference
It really is not her fault.

~~19. When Gertrude makes a cup of~~

19. When Gertrude makes a cup of
It is so weak it cannot sit up
In fact it is so very weak sick
It almost fainted in the cup.

20. Mollies biscuits are a joke
Your jaws they surely tax
You never think of biting them
You break them with an axe

21. Friends, when we start out to
bake and cook
We never, never use a book,
Our food is always fit to eat
We maintain we cannot be beat.
